

# LIVE LUGGAGE

POWER ASSISTED

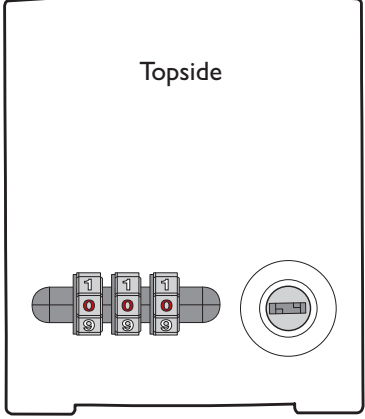

## TSA APPROVED LOCKS

### Live Luggage Security

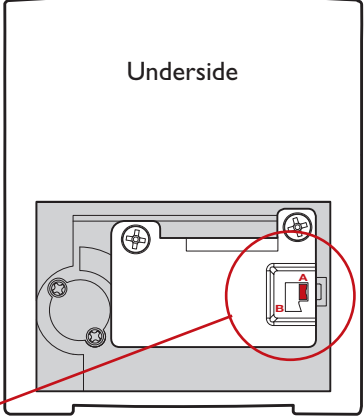

The Live Luggage PA Series comes fitted with a 3 way locking system. The master lock, which is located on the main length of the case, is a TSA approved combination lock allowing access only by you or approved security services. This in conjunction with latches located at either end keep the case securely shut.

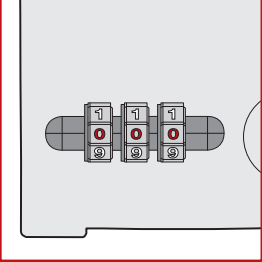

### How to set new master lock code

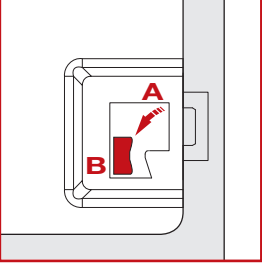

Topside

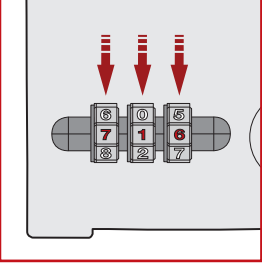

Underside

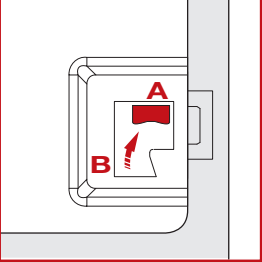

1. The code is preset to 0-0-0.

2. Set the Selection Switch (located on underside of latch) to position B

3. Rotate number wheels to your new chosen code

4. Return Selection Switch to position A - your new code is now set
